(do mention yourself as the sender on the outside of the parcel!!)

We advise you to pack your parcel well; the equipment preferably wrapped in bubble foil within a box with plenty of filling material. We recommended you to send the parcel registered (and insured if desired).

*only for **companies** within the EU.

*** **We can no longer accept any work from the United Kingdom (BREXIT).** This is due to an enormous amount of duties and customs charges levied against us that we can't claim back and are therefore unsustainable.
